Updated Sunday, July 29, 2007

The talk by Leonid Hanin, MS-6, Wednesday, 8/1, 10:30, has been cancelled. It has been replaced by a talk by Mark Chaplain, entitled "Mathematical modelling of breast cancer radiotherapy"
MS-6 will have its schedule changed as follows:

10:00 am Francesca O'Rourke
10:30 am David J. Brenner
11:00 am Rainer K Sachs
11:30 am Mark Chaplain

"Network Frailty and the Geometry of Herd Immunity," given by Shweta Bansal, is an epidemiology talk that has been incorrectly placed into CT1 (at 11am), which is an Immunology session. The organizers apologize for this error, and hope that attendees interested in the topic will attend the talk.

CT-12 Cancer III: 3:00 pm, Marian Gidea's presentation "A mathematical model of cancer treatment for albuleukin adoptive immunotherapy," will be given instead by collaborator Malgorzata Wlodarczyk.

As of Thursday, July 26, 2007

An additional session of the career workshop, in the schedule for Friday, 10:30-11:30am, will be offered Tuesday, 3-5pm, in the Belvedere room. Please note that only current graduate students and post-docs seeking tenure-track appointments should attend, in order to facilitate unimpeded discussion. Anyone interested in advertising a position may leave printed material in the room before the sessions, or may speak to Robert Smith?

The list of posters, with numbers, can be found at:

The following presentations have been cancelled:

MS-5, in its entirety.

MS-3, Tuesday, 7/31, 3:30pm, Martin Bees

MS-11, Wednesday, 8/1, 4:30pm, David Hiebler

CT-18, Thursday, 8/2, 4:00pm, Yoichiro Mori

The remaining speakers in each session will continue at their scheduled time. The intervening time may be used for questions, discussion, or break.

Corrections to the printed program:

Detailed Schedule:
